

REPORT COVERING THE CONSTRUCTION OF THE RAIN WATER HARVESTING PIT

Although there are number of rain water harvesting pits in the school campus, it was decided to construct few pits in the college campus. After deciding the feasibility in the college campus appropriate sites were selected and the work was costed and work commenced. A rain water pit with 4 x 4 x 8 ft. dimension was completed in three days. The pit was in operation from 31.12.2021. This rain water pit is located on the East side of the college campus. The expenditure incurred in the construction of the rain water amounted Rs. 23,000 which was paid out of a financial contribution from a faculty member (also an alumnus of the college).

Another rain water pit with 3 x 5 x 5 ft. dimension was completed in three days. This rain water pit is located on the West side of the college campus. The expenditure incurred in the construction of the rain water amounted Rs. 13,000 which was paid out of a financial contribution from three Alumni.
